

ARCADIAN ADVENTURES

VOL 27

3rd EDITION

December 16, 2025

Middle School Dance

A color-coded dance for middle school brought in the Christmas spirit. The dance was held in the middle school gym on Dec. 5 and went from 5 to 7:30 p.m.

Bristol Wing (32) said, “The most fun part of the dance was the music because it was fun to dance to.”

Even though everyone had a lot of fun, dancing was not the only activity. Bryce Wernet (31) said, “My favorite part of the dance was taking photos and hanging out with my friends.”

A lot of planning from the student council and Mrs. Diesing, went into the dance. Student council had the role of choosing a theme to set the tone.

Sixth grade teacher Mrs. Diesing said, “The hardest part of setting up was coordinating a day with school and the DJ.” Alivia Oloshove (30) said, “The coolest part of the dance were the lights because they made it more fun.”

About 120 out of the 172 in middle school kids attended the dance which was about the same as the other years. Out of all the grades, the 6th graders had the most attend.

Leah Byrd, Ryleigh Adams, Amber Cole, and Ava Byrd followed the color theme.

Walleye Reward

Good behavior is the game; Walleye Hockey is the reward. Many middle schools from MI and OH attended the 10:30 am game.

Avery Dietz (31) said, “I like that they reward us for good behavior because it encourages us to behave better in school.”

Even though the Walleye lost in overtime to the Bloomington Bisons, it was still an opportunity to have a fun day.

Ava Ovall (32) said, “My favorite part of the game was when the Walleye scored their first point.”

There were not many fights that happened during the game but the ones that did students found very entertaining.

Dominic Lazette (31) said, “The loudest part of the whole game was the 6 7 cam! I could not hear the person next to me.”

Whiteford has been doing this trip for three years.

Strength in friendships on and off the court is the power for this team.

Lacey Billau (31) said, "Our biggest strength is being friends on and off the court, it helps us communicate better on the court." The team started practicing at the beginning of November but does not start playing in games until January. They already have goals for themselves and their teammates.

Madison Tyrrell (30) said, "A goal for our team is to get better and have fun, I think we will get even better as we go."

Competitive Cheer

Competitive Cheer is a sport of spirit. People enjoy cheer for many reasons. Korynn Lehberger said, "I enjoy cheer because I'm with my friends and we do stunts together".

Cheer is a sport to build friendships, but it also builds character to be on the team and follow through with different stunts and cheers that can be hard to learn. Caylynn Beasley said, "I have been cheering my whole life."

The competitive cheer season started in November and does not have an exact end date.
